

Kelvion

Company profile

Heat exchange energizes the world. And it is us giving the decisive impulse. With plate heat exchangers, shell and tube heat exchangers, air cooled heat exchangers, finned tube heat exchangers, air filter systems, synthetic fillings for numerous areas of application, wet cooling towers and dry cooling systems as well as air-conditioning technology – we give comprehensive coverage of the spectrum. But even with probably the largest portfolio worldwide, that's not all that's on offer. What makes us unique and a partner of choice is the HX-Factor. Heat exchange with HX-Factor: That means customized, reliable and sustainable solutions conforming to the signs of the times.

The HX-Factor is our promise. It stands for unique expertise in heat exchange (HX = HEAT EXCHANGE) and clearly defines what lies at our core.

The HX-Factor has many facets. Its generations of experience are just as much a part of this as are its customized engineering, worldwide customer proximity or its repeated demonstration of innovative strength. Every single employee makes a contribution to energizing the HX-Factor with positive attributes. Through an enthusiasm for a technology that shapes peoples' lives in a progressive way. Through particular care and precision. Through commitment at all levels. This quality is transferred directly onto the products and services. This makes the HX-Factor a tangible experience for you too. It ensures a wide range of product benefits for you. It rewards your trust with reliable, efficient and sustainable solutions. So you can count on the HX-Factor!

- One of the world's largest product portfolios on the heat exchange market
